

Protect The Harvest was created to defend and preserve American freedoms and to support farmers, ranchers, outdoor enthusiasts, and animal owners.

How we

Inform. Protect. Respond:

Social Media

Protect The Harvest has a presence on a variety of social outlets. We consistently provide information in order to help ensure the public and key stakeholders are aware of current issues. We can be found on all major platforms; Twitter, Facebook, Instagram, LinkedIn and YouTube.

Articles and Educational Materials

Our communications team, along with guest authors, consistently publish articles and create educational materials to inform and educate the public about current issues and how we can all work together to support agriculture and protect our way of life.

Events and Initiatives

We attend select events around the nation to connect with the public and key stakeholders and to spread the word about the activities of NGO's and how they intend to drastically change our way of life. We also participate in specific initiatives that we believe will have the most impact in fulfilling our mission.

Mission

Our mission is to:

- **INFORM** and **EDUCATE** Americans about the activities of animal rights groups, anti-agriculture groups and other non-governmental organizations that threaten agriculture, animal welfare, our traditions, and way of life.
- **PROTECT** our freedoms and way of life by supporting agriculture, land use, hunting and fishing, animal ownership, and animal welfare.
- **RESPOND** to laws, regulations, or misinformation that would negatively impact animal welfare, animal ownership, restrict our rights, and limit our freedoms.
